(b) (6)

This email is in response to your request, as seen below, regarding the Eberline Property on Airport Road in Santa Fe, New Mexico.

In January 2009, we received a request from the New Mexico Environment Department (NMED), Ground Water Quality Bureau, Superfund Oversight Section, to withdraw the Eberline Instrument site from the EPA archived CERCLIS list. The NMED was to conduct a reassessment of this site/location at the request of the City of Santa Fe. NMED is in the process of the reassessment. You can contact Phillis Bustamante, with NMED at 505-827-2434, for the most recent information or activities at the Eberline site.

If I can be of further assistance, please let me know.

Sincerely,

LaDonna Turner  
US EPA - Region 6  
Superfund  
Risk and Site Assessment Section  
214-665-6666

**Subject:** Santa Fe, NM cleanup site

**Message:** As part of a graduate project, I am looking for information on a property in Santa Fe, NM that belongs to Eberline Instruments. The FRS lists its address as 504 Airport Road, Santa Fe, NM 87505-8750 (EPA Registry ID 110022738732, [http://iaspub.epa.gov/enviro/fii\\_query\\_detail\\_disp\\_program\\_facility?p\\_registry\\_id=110022738732](http://iaspub.epa.gov/enviro/fii_query_detail_disp_program_facility?p_registry_id=110022738732)). I have been told by city officials that the site has a small amount of radioactive contamination, and they think the EPA is cleaning it up in phases but they are not sure where the project stands. Could someone at EPA please provide me with information regarding this facility?
